Spicy

Guidance

Complete one of the columns of questions either mild, medium or spicy. You may wish to complete a mixture or you may choose to do them all. Answer on paper (do not bring it into school). Think about whether you should answer it mentally or using a written method. Aim to choose the most efficient method.

Answers – I will upload the answers on Wednesday for you to have as a reference.

We will go through a mixture of the mild, medium and spicy in class but not all.
